

A histogram showing the distribution of price intervals for three groups: red, orange, and green. The x-axis is labeled 'Price interval' and ranges from 1.5 to 4.0. The y-axis represents frequency, with grid lines at intervals of 100, 200, 300, 400, 500, 600, 700, 800, 900, and 1000. The red group is concentrated between 1.5 and 2.0, peaking at approximately 900. The orange group is concentrated between 1.5 and 2.0, peaking at approximately 1000. The green group is concentrated between 3.0 and 4.0, peaking at approximately 800.
